

BioHarmony

"In twenty years of practice I have never seen anything come close to what I have seen with **BIOGENX GLOBAL's Bio-Harmony**!... It is a product that has worked dramatically and quickly with some very severe and chronic problems." – So Says Dr. Don Mantel, M.D., Philadelphia, PA

You have the Power to reveal the info that may **Positively Affect** a friend or family member in preventing and reducing this non-exhaustive list of illnesses and conditions, namely:

- CHRONIC PAIN

- COLLAPSED LUNG
- BREAST MASS
- BABY'S BRAIN DYSFUNCTION
- MULTIPLE SCLEROSIS
- HEART SURGERY
- HERNIATED DISKS
- WOUNDS & CUTS REMEDIED

BIOGENX GLOBAL BioHarmony Gel

BioHarmony Gel is nearly identical to the gels used for EKG's, EEG's and Sonograms and has a long clinical history of being hypo-allergenic. BioHarmony Gel is not bio-active, but when programmed with the bio-scalar energy field, it radiates these beneficial standing waves into the soft tissue of the body and beyond. The long chains of polymers in the Gel make it a very efficient vehicle for the BioHarmony signal of bio-scalar energy.

BioHarmony Gel should be applied at the Acupuncture points and Meridians which are located on the feet/toes, hands and ears. Apply BioHarmony Gel to any body aches, pains or discomfort and stimulate the immune system by applying to the thymus area on the chest.

BIOGENX GLOBAL BioHarmony Powder

The kaolin clay used in the BioHarmony Powder is an FDA approved, pharmaceutical grade, ingestible kaolin clay. It is used as a carrier of the BioHarmony signal because of its molecular structure which is largely silicon molecules. After water, silicon is probably the most readily imprinted substance available.

The BioHarmony Powder will resonate in water. It is excellent for allergies. You can spray the Powder around the room and live in the presence of BioHarmony
